About Us

Welcome to Stone Co,

Where innovation meets excellence in construction solutions. With a steadfast dedication to delivering top-notch products crafted with cutting-edge technology, our company takes pride in being at the forefront of the industry. Embracing the synergy of Vibro Press European and Hydraulic Wet Press Vacuum UK technology, we have curated a remarkable selection of high-quality concrete products that stand as a testament to our commitment to excellence.

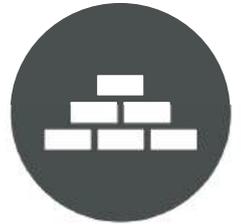

QUALITY & DURABILITY

Under the vigilance of our quality controllers, all our products undergo several quality tests to ensure best performance and high durability.

You get to choose from a wide range of custom shapes all of which are built keeping in mind specifications provided by you.

COMPREHENSIVE PRODUCT RANGE

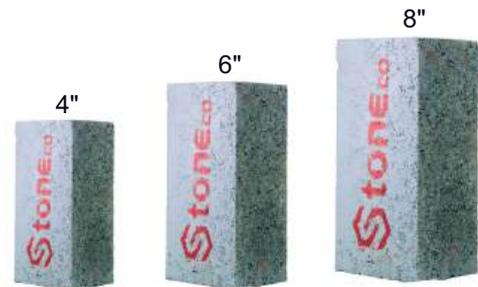

STATE-OF-THE-ART TECHNOLOGY & TEAM

Our machines and resources are engineered by sharp minds and incorporate the latest engineering and manufacturing techniques.

Our wide range of blocks, pavers, kerbs, tiles, dish channels, ready mix concrete, VRCC pipes, RCC pipes, box culvert, U-drain is designed to meet the diverse requirements of residential, commercial, and industrial projects. Whether you're building a new home, renovating an office space, or working on a large-scale infrastructure development, our Products are engineered to deliver exceptional performance, durability, and aesthetic appeal.

Solid Blocks

Sizes Specifications	4" SOLID BLOCK	6" SOLID BLOCK	8" SOLID BLOCK
Dimensions	400 x 100 x 200mm	400 x 150 x 200mm	400 x 200 x 200mm

Small Bricks

Dimensions | 230 x 175 x 75 mm

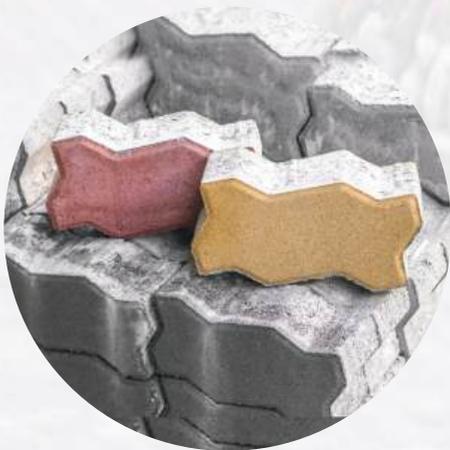

- Superior Compression Strength.
- 60% reduction in cement-mortar consumption.
- 100% improvement in labour productivity, substantially reducing labour costs.
- Environment friendly.
- Complies with ISI standards.
- 30% reduction in plastering cost.
- Fully automatic German plant, only one of its kind in India.
- Advanced German curing system.
- Cost Effective Blocks.
- All sizes (4", 6", 8") Hollow and Solid blocks.
- Perfect edges, corners and straight surfaces.
- Superior strength.
- Substantial reduction in mortar for joints and plaster.
- Loading / unloading in crane mounted trucks.

Pavers

- Available in grey, single and blended colour. (Colour customization available).
- Available in multiple sizes and patterns suited for light, medium, heavy and very heavy traffic.
- Large capacity production for quick dispatches.
- Highest strength and density.
- Lowest water absorption compared to other similar products in the market.
- Manufactured in a completely automated German machine using highly precise German moulds.

Sizes Specification:

60 MM / 80 MM

UNI Pavers

225 x 112.5 x 60mm
225 x 112.5 x 80mm

200 x 100 x 60mm

Rectangular Pavers

Dimensions

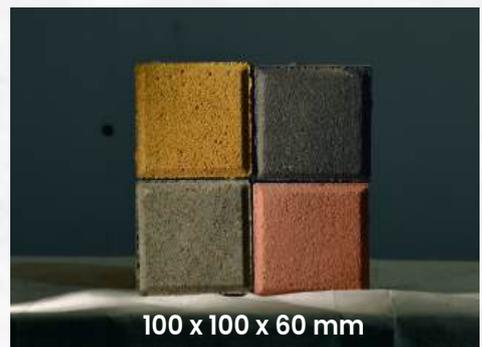

225 x 100 x 60 mm
225 x 125 x 60 mm
225 x 175 x 60 mm
225 x 225 x 60 mm
225 x 275 x 60 mm

Flexi Pavers

I Pavers

200 x 165 x 60mm
200 x 165 x 80mm

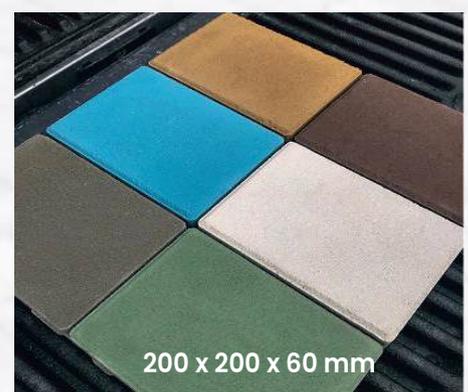

100 x 100 x 60 mm

Square Paver

Artline Grass Paver

200 x 200 x 60 mm

Rectangle Paver

Paving Tiles With Short Blasting
